PROFESSIONAL SUMMARY

Frontend Developer with over 3 years of experience creating responsive, user-friendly web applications. Skilled in React, Next.js, TypeScript, JavaScript, and modern UI frameworks like Tailwind CSS and Framer Motion. Passionate about delivering clean, maintainable code and intuitive user experiences. Eager to bring creativity and technical expertise to innovative projects

SKILLS

Front End: HTML5 | CSS3 | JavaScript | Typescript | React.js | Next.js
UI/UX Tools: Figma | Adobe Photoshop | Canva | Sketch | Adobe XD
Database: PostgreSQL | MySQL | MongoDB (NoSQL)

Backend: Node.js | Nest.js | Python | Django
Tools: Git | Github | Figma | Notion

WORK EXPERIENCE

AneesAndrews

Co-Founder & Frontend Engineer

01/2024 - Current

Collaborated directly with clients to gather requirements, design user-friendly interfaces, and deliver tailored solutions within specified deadlines.

- Developed custom websites and web applications for small businesses and start-ups, utilizing technologies like React, Node.js, and MongoDB.
- Created responsive, mobile-first websites, ensuring seamless user experiences across devices using HTML5, CSS3, JavaScript, and Tailwind CSS.
- Optimized website performance through code minification, image optimization, and implementing lazy loading, resulting in a 20% improvement in load times.
- Built and maintained RESTful APIs to support dynamic content and facilitate real-time data retrieval.
- Provided ongoing website maintenance and post-launch support, fixing bugs and implementing new features based on client feedback.

Student Tech Hub

Software Development Lead

06/2023 - 12/2023

A student-driven technology initiative focused on delivering practical solutions for academic and financial challenges. Contributed to impactful projects while strengthening leadership, technical, and mentoring skills.

- Provided ongoing website maintenance and post-launch support, fixing bugs and implementing new features based on client feedback.
- Built an **Expense Tracker App** using Flutter and Dart to help users manage and analyze their personal finances.
- Mentored 5+ junior students on JavaScript, Git workflows, and collaborative development best practices.

Hope for All Foundation

Volunteer Web Developer

09/2022 - 05/2023

- Designed and deployed an interactive donation portal, increasing donor engagement by 25%.
- Conducted group workshops to train volunteers on maintaining and updating the foundation's digital presence.

TechNova Solutions (Startup)

Frontend Developer Intern

01/2022 - 04/2023

Contributed to a fast-paced startup environment by building responsive user interfaces, collaborating closely with cross-functional teams, and delivering innovative solutions under tight deadlines.

- Built and optimized responsive UI components for an e-commerce platform, improving mobile performance by 20%.
- Integrated REST APIs and implemented TypeScript for type safety across the project.

PROJECTS

- **Topic Management System:** Developed a web-based Topic Management System to streamline project topic selection and supervisor assignments, improving academic workflow.
- **Expense Tracker App:** Built a cross-platform Expense Tracker App using Flutter and Dart to help users monitor and analyze personal finances efficiently.
- **E-commerce UI Components:** Built and optimized responsive UI components for an e-commerce platform using React and TailwindCSS, enhancing performance and user experience.

EDUCATION

- **BSc Chemistry** **November 2019 – December 2023**
Olabisi Onanbanjo University, **Nigeria**
